Interesting Facts

- Molten salt is used as an electrolyte in thermal batteries that power guidance systems in short range missiles. The salt melts - and the battery becomes active - shortly before or after the missile is launched. Battery life is usually less than 10 minutes.
- More than five thousand years ago, melting polar ice caps raised the sea level in the gulf of Mexico, creating what is now Lake Pontchartrain.
- In the 1984 Science Fiction novel "Neuromancer", William Gibson coined the term "Jack-in" to describe the process by which people physically connected their brains to a global computer matrix.

AHR Expo Exhibitors

Las Vegas Convention Center: Jan 31 - Feb 2

Fulton Companies - Booth C1951

Fulton specializes in custom engineered industrial and commercial heating systems featuring hot water boilers, steam boilers, heat pumps, thermal fluid heaters, temperature control units and a full range of ancillary equipment.

On display will be a skid mounted Invictus Heatpump with a Reliance Boiler, a Vantage High Efficiency Gas Boiler, & a Tribute Steam Boiler. They will also be introducing the 6000MBH Vantage.

Make sure to see these seminars presented by Fulton:

- » Monday Jan 31 @ 2:45 in Theater C - *ModSync & Insite: Boiler Sequencing System with Remote Monitoring*
- » Tuesday Feb 1 @ 11:30 in Room N109 - *Primary & Variable Flow Piping Systems for Condensing Hydronic Boilers: Mechanical Design & Control Strategy*

Lochinvar Corp. - Booth N3501

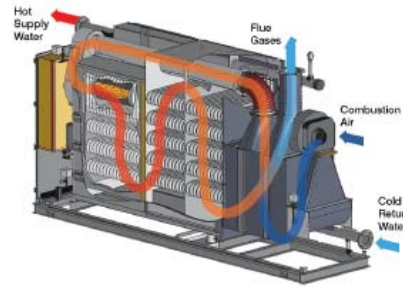

Lochinvar has been the leader in copper fin tube Boilers, Water Heaters & Pool Heaters. Within the past 5 years they have been dominating the stainless steel water tube high efficiency boiler market. Now they are introducing high efficiency stainless steel firetube boilers. Make sure to see the new CREST and Knight boilers.

Bryan Boilers - Booth C308

Bryan manufactures hot water and steam flexible water tube boilers. They have recently introduced their Triple Flex stainless steel high efficiency water tube boiler. This boiler has a guaranteed 90% efficiency rating at 160°F return with a 20° rise.

Power Flame Burners - Booth C1229

Power Flame manufactures gas, oil, combination gas/oil, low NOx burners, fuel oil pumpsets and combustion control systems designed for commercial, industrial and process applications. They will be unveiling their new UCM Ultra Low NOx Gas/Oil CMAX Burner.

Schebler Chimney Systems - Booth N3656

Schebler leads the industry with a 2 week leadtime on positive pressure chimneys, heavy wall engineered stacks, grease ducts and draft induction fans.

Make sure to see this seminar presented by Schebler:

- » Tuesday Feb 1 @ 11:15 in Theater C - *Slim Vent - Flat Oval Grease Duct System*
