Patterson Pump overview

Patterson Pump Company is one of the world's leading suppliers of quality pumps for the Fire, Municipal, Industrial, Flood Control, Plumbing, and HVAC Markets. An extensive product offering serves our customers World-Wide.

Newest Product is the AquaFlo Control:

AquaFloControl™ plumbing systems and accessories deliver reliable water service at controlled volume and pressure to your tallest and most demanding customers. These preengineered, standard and custom booster plumbing packages are easy to install, operate and maintain.

Empowering Control

Calling on the innovative engineering expertise Patterson Pump products have embodied for more than a century, AquaFloControl systems now sport a new, state-of-the-art System Controller. Offering both energy and system management, this new custom, programmable controller offers an easy-to-read and operate interface that belies its highly sophisticated capabilities.

Coming Next Month

- A New Featured job of the month
- An energy study showing the savings involving condensing boilers
- Another chance to win a prize in our trivia contest.
