Job Of The Month:

## Barrett Dog Food

Fulton's VSRT meets the Processing Needs of this Dog Food Company

Project: Barrett Dog Food  
Location: Little Falls, MN  
Mechanical Contractor: RJ Mechanical  
Equipment: (2) Fulton VSRT250  
Fulton Steam Ancillary Equipment(boiler feed and blowdown tank)

Ryan Company provided 2 Fulton VSRT 250s to this Dog food processing facility. Along with equipment Ryan Company provided start up by our expert on staff service team. Providing the startup on these types of systems really keeps the project management process streamlined and the ability to turn a project into a working system in no time at all.

**With the VSRT the customer is able to have the industry's smallest footprint while having an efficiency of up to 86%(the best in the industry) along with having a steam quality that is untouched by most at greater then 99.75% and has a 10 year PV warranty on the VSRT. All those plus minimal maintenance needed. All these factors make the VSRT the perfect steam boiler for your food processing boiler needs. Fulton really is changing the game when it comes to your Steam Boiler needs. [This project really has been a win for all parties involved. The best part is the Low cost of Ownership to Barrett Dog Food. That Equals one happy Customer and Some really happy Pets!!!](#)**

Take a look at a video on the VSRT250 below. Just click the link!!!
